Presents

Officer Involved Shootings for Field Supervisors

**16 hours | Two days | Tuition \$249 POST Plan IV
STC Certified – Tuition \$200**

Description:

In response to one of the most challenging events in the career of a law enforcement officer, the field supervisor must be prepared to encounter and handle effectively a variety of procedural, emotional, and legal issues that come with an *OFFICER INVOLVED SHOOTING*. This offering from D-PREP is designed to prepare the field supervisor for the eventuality when one of their officers engages in this deadly incident. Few law enforcement supervisors are provided this necessary training, mostly left to rely on “OJT” or await the arrival of a command officer or other supervisors.

This two-day course is presented entirely from the practitioner’s perspective through interactive discussion, practical exercises and specific case studies examining real challenges supervisors have faced when responding to officer involved shootings. Our experienced instructors have extensive experience in the very relevant disciplines of Internal Affairs Investigations, Homicide Investigations and many years of street supervision and management from across the state.

Topics:

OIS dynamics // The mind of the officer before, during, and after // Impact on the organization and individuals involved // Scene response // Overview of the criminal investigation // Overview of the administrative investigation (IA) // Protocol procedures // Crisis media relations // De-escalation/Tactical options //Case studies, practical exercises, more...
